

HOW CARBON PROJECTS STRENGTHEN YOUR LAND

Changing how you manage parts of your property to:

- Build carbon in soils and vegetation
- Support healthier pastures and landscape function
- Increase biodiversity and groundcover
- Generate Australian Carbon Credit Units (ACCUs) as the land improves

An ACCU represents one tonne of CO₂-e stored or avoided.

You can sell ACCUs or use them to meet your own goals.

REGENERATE LANDSCAPES

DIVERSIFY INCOME

STRENGTHEN RESILIENCE

WHAT YOU MAY GAIN

- ✓ New income streams that support long-term goals
- ✓ Improved soil health and productivity
- ✓ Resilience to droughts and floods
- ✓ Stronger recognition for sustainable land management

Registering a carbon project is just the beginning. Delivering results year after year is what matters. Projects supported by Climate Friendly have been issued more than 25 million ACCUs — around 25% of Australia's land-sector credits.

That's experience you can rely on.

***"Carbon farming gives us confidence to plan for the future."* – Michael, NSW cattle farmer**

OUR SERVICES ARCROSS MULTIPLE METHODS

**Environmental
Plantings**

**Savanna Fire
Management**

**Herd
Management**

Plantations
